JAN 2 2008 Arizona Corporation Commission

DOCKETED

JAN 2 2008

DOCKETED BY

BEFORE THE ARIZONA CORPORATION COMMISSION

IN THE MATTER OF THE APPLICATION
OF LITCHFIELD PARK SERVICE
COMPANY FOR AN EXTENSION OF ITS
CERTIFICATE OF CONVENIENCE AND
NECESSITY TO PROVIDE
WASTEWATER SERVICE IN MARICOPA
COUNTY, ARIZONA.

DOCKET NO. SW-01428A-06-0021

**NOTICE OF COMPLIANCE WITH
DECISION NO. 68744**

Litchfield Park Service Company ("LPSCO" or "Company") hereby files this Notice of Compliance in the above captioned matter. In Decision No. 68744 (June 5, 2006), the Commission ordered LPSCO to file a detailed report in January of each year describing the Company's progress toward working with the water company in the requested extension area, Valley Utilities, to increase the use of effluent specifically as it pertains to golf courses, ornamental lakes or other aesthetic water features.

Since Decision No. 68744, LPSCO has approached Valley Utilities on a few occasions to coordinate the use of effluent in the requested extension area, despite the fact that the nearest connection is several miles from Valley Utilities' system. Bob Prince, the President of Valley Utilities, has indicated to LPSCO that there are no lakes or water features that can use the effluent. Although there are a few small water retention areas within the extension area, they are far too small to economically justify the service connection facilities required to utilize effluent. LPSCO's efforts thus far to coordinate effluent use with Valley Utilities have not proved successful.

1 Valley Utilities' reluctance to use effluent based on an absence of need has not
2 prevented LPSCO from exploring other opportunities to reduce the Company's reliance
3 on groundwater through greater effluent use. LPSCO personnel have been in discussions
4 with two golf course owners in the Company's service area for the use of effluent. These
5 owners have been receptive to using effluent, and one indicates that it will likely be ready
6 to begin such use in the first quarter of 2008. Additionally, LPSCO has already begun
7 utilizing effluent at two greenbelt areas within its service area, and has incorporated
8 effluent use into the design of facilities required to serve the new Estrella Falls Mall
9 development.

10 RESPECTFULLY SUBMITTED this 2nd day of January, 2008.
